# Engaging Students with APPs in the Classroom

Presenter: Shawn Orr
Shawn.Orr@Cengage.com

Reviewing Bloom's Taxonomy

* Benjamin S. Bloom – Author of 18 books, Taxonomy translated into 22 languages, one of the most often cited references in education

* Learning does not happen by chance. This taxonomy categorizes levels of questions (thinking) from the simplest to the most complex. Are we helping students "climb to a higher level of thought?"
