to College!**

**SUCCESS STARTS HERE**

# A Letter from the Director

Dear Parent,

Thank you for considering the **Middlesex County College Kindergarten Program**. I am excited to share information about our program with you. As early childhood educators, we believe, and research supports, that children learn from experience and guided interaction. Our kindergarten classroom is an interactive environment where children are engaged in their learning. Peer interaction takes place and social skills are modeled as well as small-group problem solving. Literacy and math challenges are featured each day. Since our unique program is housed on a college campus, a multi-faceted community, your child will benefit from college program resources, such as dental hygiene students discussing oral hygiene, culinary students talking about nutritious meals, and nursing students engaging children about staying healthy and avoiding germs. We also offer a weekly Reader's Theater where your child can begin his or her journey of becoming a lifelong reader. In addition, we use the **enVision Math Program** which assists your child with hands-on learning of standard measurements, set counting, addition and subtraction. Be assured that all of these daily lessons are aligned with the New Jersey Kindergarten standards.

I look forward to beginning this wonderful introduction to school with your family.

Thank you in advance for considering our program for your child's kindergarten year.

Best Regards,

Mary Jo Tivenan-Mackintosh, M.Ed.

Director

# MCC Full Day Kindergarten

**Middlesex County College will open a full-day Kindergarten in September 2016.**

- Full day program 8:30 a.m.- 3:30 p.m.
- Before and After Care available
- enVision Math program, Reader's Theater, and Creative Curriculum Literacy components aligned with NJ Kindergarten Standards
- Lunch and afternoon snack provided
- Small group size

# Curriculum

enVision Math program promotes set counting, differential grouping, patterns and introduction to addition and subtraction using hands-on learning. Aligns with guidance recommendations of NJ Kindergarten Math Standards.

Literacy will be taught through phonetic awareness, sight words, daily reading time, mini lessons, and small group conferencing. Aligns with guidance recommendations of NJ Kindergarten Language Arts Standards.

We strive to make learning fun through social and emotional development, literacy, math skills and everyday discovery!

Children are natural learners and creating an environment in which they can participate and discover in a positive, nurturing setting is the best road to future learning success.
